Week Schedule

Each day your child will learn about a new animal that we have on our farm. They will learn how to care for the animal and what they are able to do. We will also have a craft everyday pertaining to the animal that they previously learned about. On the days that we teach them about horses they will have a pony ride on one of our horses. Throughout the day we will also play games, eat lunch, fish, have snack breaks, do scavenger hunts, challenges, the slip and slide, and so much more!
